CAREER OBJECTIVE

Aspiring Software Developer with a strong foundation in Java, Full-Stack Development, and problem-solving, seeking an entry-level opportunity to design, develop, and maintain scalable software applications. Passionate about building real-world solutions, learning emerging technologies, and contributing to organizational success while continuously enhancing my technical skills.

EDUCATION

PANIMALAR ENGINEERING COLLEGE , CHENNAI - 600123 Bachelor of Technology in Computer Science and Business Systems CGPA: 8.6 / 10.0	2023 - 2027
VIDHYA NIKETAN HR SEC SCHOOL , PUDUCHERRY - 605009 HSC – Class XII Percentage: 78.16%	2022 - 2023

PROJECTS

Smart Trip Planner – Project	2025 – 2026
Developed a full-stack AI-assisted travel itinerary planner using React (Vite), Node.js (Express), and PostgreSQL to generate personalized day-wise travel plans based on destination, budget, travel style, and companion type. Implemented proximity-based routing using the Haversine formula, Leaflet maps, weather integration, budget analytics, PDF export, JWT & Google OAuth authentication, and an admin dashboard for destination management.	
Music Application (Qspiders, Chennai)	Feb 2025 – Apr 2025
Built a responsive web music player that allows users to play, pause, and navigate through tracks. Features include a user friendly interface and real-time audio control. Developed using HTML, CSS, and JavaScript. Hosted on Firebase and available on GitHub for public access and collaboration.	
Quick Dictionary (Chrome Extension)	2025 – 2026
Developed a Chrome Extension using JavaScript (Manifest V3), HTML, and CSS that provides instant English word definitions through intelligent hover detection and manual search. Integrated Dictionary API, Web Speech API, and Shadow DOM for pronunciation, isolated tooltips, keyboard shortcuts, and seamless browsing with support for both Light and Dark themes.	

EXPERIENCE / INTERNSHIP

Web Development Intern VaultofCodes
Completed a one-month Web Development Internship at VaultofCodes, where I developed responsive web applications using modern web technologies and enhanced my frontend development skills.

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, Python (Basics), HTML, CSS
Frontend : React.js
Backend : Node.js , Express.js
Databases : PostgreSQL
Developer Tools : Git, GitHub, VS Code, Postman
Concepts : Object-Oriented Programming (OOP), Data Structures & Algorithms, REST APIs
Problem Solving : Solved 280+ coding problems on LeetCode

CERTIFICATES

Feb 2025 – Web Development QSpiders, Chennai
Oct 2025 – Basics of Machine Learning NPTEL SWAYAM

LANGUAGES

- English
- Tamil
- French (basics)
